

6 QUICK TIPS ON USING PINERGY'S HOMEPAGE

The Pinery homepage features a streamlined look, easy-to-read text, and a responsive mobile device experience.

1 Move "Widgets" Anywhere:

The homepage is fully customizable, giving you the ability to place your most-used functions wherever you want. Just drag them by the grey header boxes!

2 Larger Fonts and Buttons

Text is large and readable, buttons are easy to click, and fields are easy to fill out.

3 Collapse Widgets You Don't Need

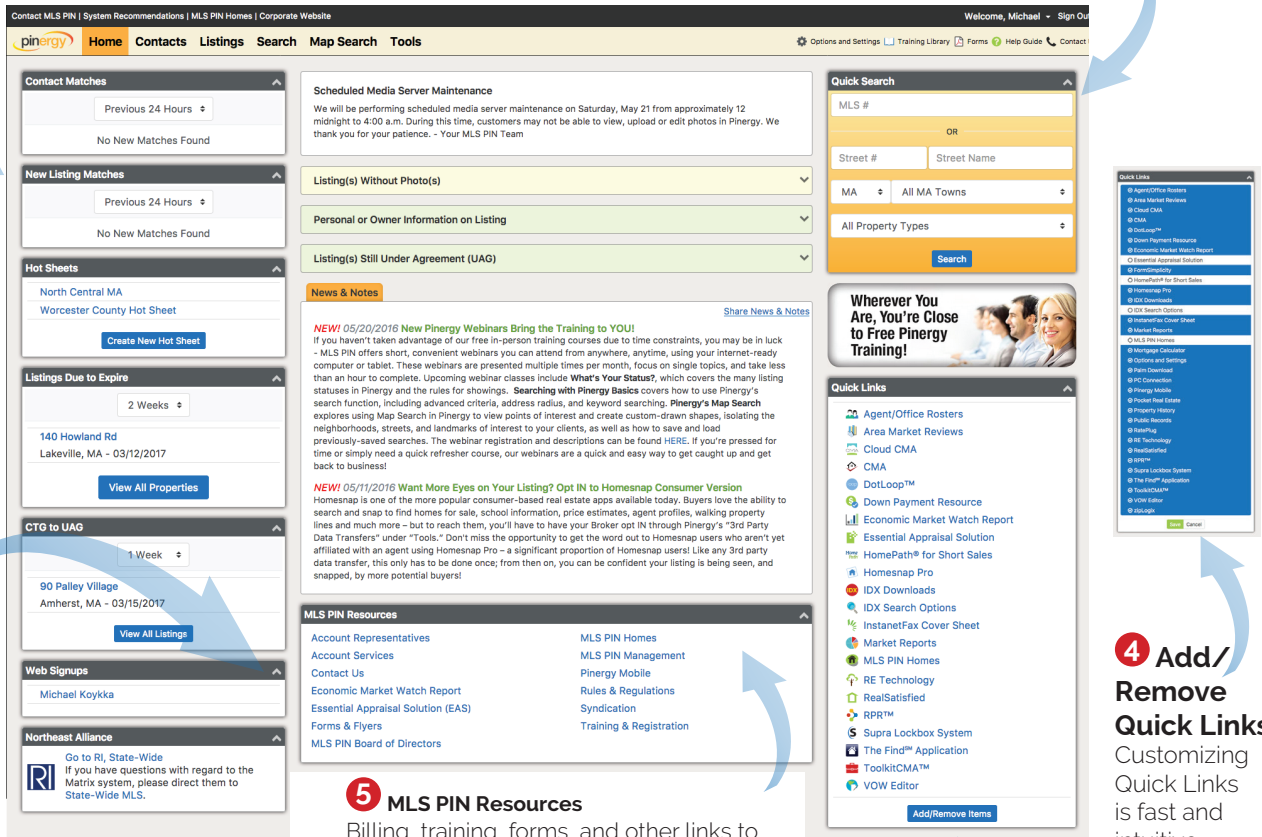

Don't need certain functions? Click the "▲" and the box collapses until you expand it again!

5 MLS PIN Resources

Billing, training, forms, and other links to MLS PIN-specific information and tools are in one place.

4 Add/Remove Quick Links:

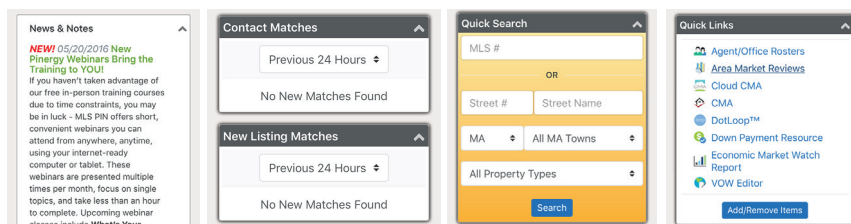

Customizing Quick Links is fast and intuitive.

REDESIGNED FOR ALL SCREEN SIZES

6 Looks Great on Your Phone or Tablet:

The Pinery homepage can accommodate all screen sizes, and everything works just like it does on your desktop PC.

This Is Just the Beginning!

Your homepage is the first phase toward a more flexible and efficient Pinery system, and for now it is the only page featuring the redesign (although the new navigation bar appears on all pages). Keep on the lookout for future Pinery updates in the works!
