

# YOUR CONTACTS ARE YOUR BUSINESS

PINERGY HELPS YOU MANAGE THEM WITH OUR POWERFUL "CONTACT MANAGEMENT" FEATURES:

## Narrow Down Your Contacts with Categories

User-defined **Categories** provides a way to narrow down your list of contacts to find just the one(s) you're looking for. Because contacts can be assigned multiple categories, you can find all "Buyers" interested in "Condos," or all "Sellers" in a particular town. With Categories, you can find any contact with just a few clicks.

## View Contact Activity by Day, Week, Month and More

Choose which time frame to view contact activity: by the day, week, month, 3 months, 6 months, or year.

View activity in graph form. **"Listing View Activity"** shows you matches and views over time, to see if contacts are viewing the properties they're being sent. **"View Price Activity"** shows you if prices of viewed properties are trending up or down over time.

## Multiple Entries Per Contact

Contacts have multiple phone numbers and email accounts. Not to mention friends and family to help with the decision! Pinergy lets you **add up to 6 names**, phone numbers, emails and addresses per contact. You can also set the preferred method of contact and methods to avoid.

Add an event (sale date, birthday, etc) to keep in touch after the sale.

## Create Client Searches and Notification Frequency

The **"Searches"** tab is where you can view, create, clone and delete searches attached to contacts. Offer your contacts notifications every 15 minutes as well as daily, weekly, monthly or never. The **"Detail"** check box gives you instant, at-a-glance information on each search.

Your clients will appreciate being able to see not only active, but off-market listings; great for quick comparable searches.

The **"History"** tab displays rich history for every contact, including what changes were made and when they were changed.

## View Your Contact's Matches as Photo Summary, Line View, Map View and More

The **"Matches"** tab displays contact matches, with the ability to filter results by client feedback, individual searches, hidden/not hidden from contact, viewed/unviewed by contact, star ratings, status, towns, and price range. The interactive **Map View** gives you a bird's-eye view of all of your contact's matches in Road, Aerial or Hybrid views.
